Rivestimento architettonico in noce canaletto naturale (fin.11) o grigio (fin.2W), costituito da formelle triangolari e romboidali, queste ultime con o senza bisellatura. La decorazione è ottenuta dalla particolare geometria delle formelle e da 3 diversi effetti di glossaggio e saturazione del colore della tinta del noce canaletto. Grazie a due modalità di posa è possibile ottenere diversi pattern.

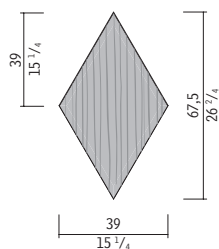

Architectural surface in natural (fin.11) or grey (fin.2W) walnut canaletto wood, made up of triangle and rhombus-shaped tiles, with the latter with or without bevelled edge. The decoration is obtained from the characteristic geometry of the tiles and from 3 different gloss levels and colour saturation of walnut canaletto wood. Thanks to two directions of laying it, it is possible to obtain multiple patterns.
